

Inter-agency Global Evaluation of RH Services for Refugees and IDPs

Review of Changes Over Time Within
Agencies/Institutions Involved in
Reproductive Health Services for Refugees
and IDPs

Methodology

- questionnaire survey
- administered electronically
- approximately 50 agencies/institutions
- key person from each agency/institution
- organizational view

Topics

- roles/responsibilities
- programming (including program components)
- policies/protocols/guidelines
- budgets/financing/program funding

Topics (cont'd)

- staffing
- technical assistance and the impact thereof
- reproductive health training
- technical resources (e.g. practical guidelines)

Topics (cont'd)

- collaboration/coordination within and between agencies
- capacity building of local organizations and host country governments
- mainstreaming versus stand alone programs (missed opportunities/overlap)

Topics (cont'd)

- barriers/constraints to reproductive health programming
- lessons learned
- recommendations
- future priorities
