▶ Pre- and post-tests	127

Acknowledgements

The *HIV/AIDS Prevention and Control: A Short Course for Humanitarian Workers* was principally developed by Wendy Venter, an independent consultant to the Women's Commission for Refugee Women and Children. Sandra Krause, Julia Matthews, Diana Quick and Sarah Chynoweth of the Women's Commission for Refugee Women and Children provided project direction, support and editorial oversight.

We would like to acknowledge Wendy Holmes and the International Rescue Committee for the development of the manual, *Protecting the Future: HIV Prevention, Care and Support Among Displaced and War-Affected Populations*, which is used as a main resource in this course.

We would like to thank the following people for reviewing the curriculum and providing important recommendations:

- ⊙ Doris Bartel, *CARE International*
- ⊙ Meriwether Beatty, *JSI Research and Training Institute*
- ⊙ Rick Brennan, *International Rescue Committee (IRC)*
- ⊙ Samantha Guy, *Marie Stopes International*
- ⊙ Mary Otieno, *International Medical Corps (formerly of IRC)*
- ⊙ Susan Purdin, *IRC (formerly of Columbia University)*
- ⊙ Paul Spiegel, *United Nations High Commissioner for Refugees*

We would also like to express our appreciation to the participants of the pilot testing and trainings in Sierra Leone, Kenya, Thailand and Pakistan who enriched the curriculum with their knowledge and experience from their conflict-affected settings.

Thanks to the agencies who hosted the pilot testings and trainings (MSI Sierra Leone, IRC Kenya, ARC Thailand and ARC Pakistan) and Wendy Venter's co-facilitators, Susan Purdin, Julia Matthews and Sandra Krause.

Appreciation goes to Lucy Alexander and Tania Vergnani for their expertise in curriculum development, Hennie Venter for his help in illustrating PowerPoint presentations and Border Technicon FM Campus Radio, South Africa, for its assistance in editing audio interviews.

In addition, we'd like to recognize Sandra Green and her team at Green Communication for their outstanding design and production assistance, and Alain Côté and his team at Expression Multimédia for their production assistance of the CD ROMS.

Finally, the University of the Western Cape HIV/AIDS student support group made the HIV/AIDS issue real and personal for everyone involved in the project and we are grateful for their willingness to share their experiences, including Mfundo Alfred Damoyi, Busisiwe Maqungo and Bonile Peter.

The *HIV/AIDS Prevention and Control: A Short Course for Humanitarian Workers* was made possible by the generous support of the Andrew W. Mellon Foundation.
